Adult Specialty Provider Directory

How to Use the Digital B – UFC Specialty Provider Directory

The following directory is being made available for providers to support in identifying specialty services and programs that are open to receiving external referrals. The directory contains a list of AHCCCS covered services that can be utilized by Banner – University Family Care (B – UFC) ACC members.

The directory includes contacts, AHCCCS covered services, program descriptions and referral in details to support our member’s General Mental Health and Substance Use (GMH/SU) covered services. Which include: Crisis Stabilization, Service Plan Development, Initial and Ongoing Crisis Planning, and support for unique populations.

Click-able Directory Feature

AHCCCS covered services are available by commonly utilized services types. Each service type has a breakdown of counties that serve B – UFC /B – UCA members. Providers that offer the identified AHCCCS covered service have an imbedded link. Clicking on the provider agency will take you to the program descriptor and referral contact. This is also available for each provider listed in the table of contents.

Agencies listed in this directory are contracted with B – UFC, this may not reflect all Behavioral health Providers, for additional General Mental Health/ Substance Use providers, please refer to <https://www.banneruhp.com/find-a-provider> provider look-up.

For more information on fidelity to ART practice, refer to the AHCCCS Adult Recovery Team or (Adult Clinical Team): <https://www.azahcccs.gov>

General Information

Medication Assisted Treatment (MAT)

Medication Assisted Treatment (MAT), including opioid treatment programs (OTPs), combines behavioral therapy and medications to treat substance use disorders.

The Substance Use Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities (SUPPORT) Act affords practitioners greater flexibility in the provision of medication-assisted treatment (MAT).

Peer Services (Peer Support)

This may involve assistance with more effectively utilizing the service delivery system (e.g., assistance in developing plans of care, identifying needs, accessing supports, partnering with professionals, overcoming service barriers) or understanding and coping with the stressors of the person's disability (e.g., support groups), coaching, role modeling and mentoring.

Peer support services are intended for enrolled persons and/or their families who require greater structure and intensity of services than those available through community-based recovery. These services may be provided to a person, group or family and are aimed at assisting in the creation of skills to promote long-term, sustainable recovery.

Service Standards/Provider Qualifications

Individuals providing peer services must be employed by or contracted with a Community Service Agency or a licensed facility allowed to bill the procedure code. Community Service Agencies providing this service must be Title XIX certified by AHCCCS.

Self-help/peer services are provided by those who have been credentialed as Peer/Recovery Support Specialists through an AHCCCS BEHAVIORAL HEALTH SERVICES approved Peer Support Employment Training Program, self-identify as a "peer" and are qualified as behavioral health professionals, behavioral health technicians, or behavioral health para-professionals as defined in 9 A.A.C. 10. A "peer", as referenced in these provider qualifications, is defined as an individual who is, or has been a recipient of behavioral health services or substance abuse and has an experience of recovery to share.

Crisis Support

A Crisis is when a person presents with a sudden, unanticipated, or potentially dangerous behavioral health condition, episode, or behavior. Crisis intervention services are provided to a person for the purpose of stabilizing or preventing a sudden, unanticipated, or potentially dangerous behavioral health condition, episode, or behavior. Crisis intervention services are provided in a variety of settings or over the telephone. These intensive and time limited services may include screening, (i.e. triage and arranging for the provision of additional crisis services) counseling to stabilize the situation, medication stabilization and monitoring, observation and/or follow-up to ensure stabilization, and/or other therapeutic and supportive services to prevent, reduce or eliminate a crisis situation.

Solari Crisis Line:

988 or Arizona Statewide (844) 534-4673

AHCCCS COVERED SERVICES

Behavioral Health Counseling and Therapy Services

An interactive therapy designed to elicit or clarify presenting and historical information, identify behavioral problems or conflicts, and provide support, education or understanding for the person, group or family to resolve or manage the current problem or conflict and prevent, resolve or manage similar future problems or conflicts. Services may be provided to an individual, a group of people, a family or multiple family.

Medication Assisted Treatment (MAT) for Substance Abuse Disorders (suds)

Medication-Assisted Treatment (MAT) is the use of medications, in combination with counseling and behavioral therapies, to provide a “whole-patient” approach to the treatment of substance use disorders and prevent opioid overdose. A combination of medication and therapy can successfully treat these disorders, and for some people struggling with addiction, MAT can help sustain recovery.

Opioids Treatment Program

An OTP is any treatment program certified by the Substance Abuse and Mental Health Services Administration (SAMHSA) to provide medication-assisted treatment for individuals who are diagnosed with opioid use disorder. These treatment programs are authorized to administer and distribute all forms of medication assisted treatment, Methadone, Buprenorphine (Suboxone/Subutex) and Naltrexone. Additional services within the OTP can include case management, peer support, individual counseling, group counseling and other types of support services for the individual.

AHCCCS is implementing new standards and reporting requirements for all Opioid Treatment Programs (OTPs) receiving Medicaid reimbursement.

Office Based Opioid Treatment Programs

OBOT programs allow for qualified primary care physicians to provide opioid treatment services in their office-based settings. Federal guidelines allow qualified physicians in the OBOT to prescribe medications for opioid use disorder in their office setting, but it is required that the physician has the ability to connect their patients to the appropriate level of counseling and other appropriate support services.

Behavioral Health Prevention/Promotion Education and Medication Training and Support Services (Health Promotion)

Education and training are single or multiple sessions provided to an individual or a group of people and/or their families related to the enrolled person's treatment plan. Education and training sessions are usually presented using a standardized curriculum with the purpose of increasing an individual's behavioral knowledge of a health-related topic such as the nature of an illness, relapse and symptom management, medication management, stress management, safe sex practices, HIV education, parenting skills education and healthy lifestyles (e.g., diet, exercise).

General Mental Health and Substance Use Providers

A Living Room on Broadway, LLC

<https://hiddenparadox.com>

Specializing in Substance Use Disorder and Addiction, Suicidality, Trauma and Co-occurring Issues. This treatment approach results in long-term recovery. Neurobiologically-informed treatment modalities are used to activate the part of the brain that stores trauma memory. It's a trauma-informed approach integrating medical, psychological, and emotional healing. Rewriting the stories created by trauma and retraining the nervous system to relax are key components of the process.

CODAC Health Recovery Wellness

<http://www.codac.org/>

Men's Services:

CODAC offers specialty care for men with addiction, depression, anxiety, anger issues, trauma, and more serious and persistent mental illnesses. We provide exceptional care through a supportive team of psychiatric medical providers, therapists, case managers and peer support specialists who will help you gain the tools to improve the quality of your life.

Our complete health care approach now includes primary health care, in addition to our behavioral health care services. This allows us to care for your day-to-day and complex health care needs. You will have a variety of experts working with you as one team, in one convenient location. They will focus on your physical and mental health to provide you with the most complete health care available.

- Case Management
- Therapy & Support Groups
- Transitional Sober Living
- Psychiatric Evaluation
- Medication Management
- Primary Care & Wellness
- Employment Assistance
- Acupuncture
- Peer Support
- Court Ordered Treatment

Women's Services:

CODAC provides specialty care for women living with depression, anxiety, trauma, and addiction as well as serious mental illnesses like bipolar disorder and schizophrenia. We offer an array of options to meet the individual needs of each woman who enters our doors. This care extends beyond behavioral health into primary care, so we can treat the whole person. Our goal is to help each woman restore a positive sense of self, regain the personal strength to make healthy choices and find the joy in life. Our individualized, client-centered programs include:

- Diagnosis and treatment for serious mental illness.
- Outpatient Counseling and Support.
- Women can participate in therapy and support groups alongside women with similar experiences.
- Individual, couples, and family therapy are provided by therapists who are knowledgeable about women's concerns, health, and well-being.
- The treatment team can help connect you connect and coordinate care with primary care, OB/GYN, psychiatry and other health care providers, as necessary.
- Residential Treatment Facility for pregnant and postpartum women with Substance Use Disorder.
- On-site pharmacy and lab
- Additional support for postpartum depression and other mood disorders related to pregnancy and childbirth.

LGBTQI Support Services:

The Living Out Loud LGBTQI Health & Wellness Program is a safe, welcoming environment where everyone is celebrated for who they are. If you identify along the lesbian, gay, bisexual, intersex, or transgender, intersex or gender non-conforming spectrum (LGBTQI), we invite you to check out our unique health and wellness services including:

- Mental health care (counseling and therapy)
- Psychiatric assessment
- Medication management)
- Support and community groups

Heroin and Opioid Addiction Treatment (MAT):

- Assessments with counselor & nurse.
- Prescription & induction by psychiatric addiction specialists (MDs or NPs). Based on individual need and safety.
- Treatment plan for short- and long-term success.
- Help with withdrawal symptoms.

Andrew Street Brief Intervention Program:

Andrew Street is a six-bed, short-term residential treatment facility for adults with serious mental illnesses. Referral from a Care Manager or Physician is required

Alpha Team:

The Alpha Team program follows criminal cases involving CODAC members from the point of incarceration to final adjudication. The team supports CODAC staff and members by meeting members at the jail, attending court hearings as well as jail and/or probation staffing.

Support & Care After Business Hours:

The Safety Zone is a safe phone number to call when you feel you need additional support outside of CODAC’s normal business hours but are not in immediate danger to yourself or others. Staff who answer the phone line are CODAC employees.

Community Bridges Inc.

<https://communitybridgesaz.org/>

CBI offers psychiatric services for people with general mental health needs in an outpatient environment. Using what we call a Patient-Centered Medical Care model, we promote an open partnership between practitioners, patients, and their families. We treat an individual’s mental health using an integrated approach because we know mental well-being goes hand in hand with physical well-being and recovery. A variety of treatments are used, including psychotherapy, medication, and psycho-social interventions to build a unique treatment plan for each individual.

CBI coordinates patient care and treatment plans with other specialists to ensure a patient’s needs are met, through support from peers with shared experiences, patients find a new purpose through our one-on-one case management in a setting that models the importance of healthy support systems.

Medication Assisted Treatment (MAT):

CBI uses best practices to help adults with opioid dependency of prescription pain medications, fentanyl, and heroin. Our Medication Assisted Treatment (MAT) program is a “whole patient approach” to substance use disorder, as described by the National Institute on Drug Abuse. Treatments include a multi-disciplinary approach with medication, counseling, and behavioral therapies. MAT protocols are directed by licensed medical practitioners and supported by a clinical team of registered nurses, behavioral health specialists, peer support specialists, and transition coordinators. We monitor patients’ mental and physical health, while integrating therapy and peer services.

Services:

- Evaluation and Medical Consultation
- Medical Detoxification
- Outpatient Treatment Groups
- Primary Medical Care
- Psychiatric Evaluation and Treatment
- Peer Support
- Continuum of Care
- Relapse Prevention
- Individual Counseling
- Family Education
- Court-Ordered Treatment
- Court Ordered Evaluation

MAT Medications varied by clinic:

- Suboxone
- Vivitrol
- Methadone

Community Health Associates (CHA)

<https://www.chaarizona.com>

Community Health Associates offers outpatient behavioral health treatment and substance use services for adults and families. A thorough clinical assessment identifies the person's strengths, needs, abilities and personal preferences, this information helps formulate an individualized service plan (ISP) that guides the treatment process from beginning to end. Our philosophy of care is dedicated to helping to improve the quality of lives of adults,

families, and the communities they live in, by building upon strengths. Every member has the right to receive care in the least restrictive setting, to live independently, when possible, to be employed, to lead a healthy lifestyle.

Our staff is dedicated to helping consumers fully exercise their rights while learning how to use local resources and systems of care to meet individual and family needs.

Recovery Opportunity Center (ROC) a 23 hour “Living Room Model” Crisis Program. It is a short-term crisis intervention, 24hrs a day, 7 days a week. Provides crisis resources, which are described as: immediate and unscheduled behavioral health services in response to an individual’s behavioral health issue to prevent imminent harm or to stabilize or resolve an acute behavioral health issue. This is offered at the Yuma and Parker location.

Therapeutic Services:

- Cognitive behavioral therapy (CBT)
- Individual therapy
- Group therapy
- Dialectical behavioral therapy (DBT)
- Couples therapy
- Experiential therapy
- Family therapy
- Trauma therapy
- Substance abuse counseling
- Addiction treatment therapy
- 12-Step based treatment approach
- Brief intervention approach
- Contingency management/motivational incentive
- Motivational interviewing
- Counseling for anger management
- Matrix Model
- Court-Ordered Treatment

Community Medical Services (CMS)

<https://communitymedicalservices.org/>

Community Medical Services (CMS) provides ASAM Level 1 Outpatient Opioid Maintenance Treatment services for clients with a diagnosis of opioid use disorder (OUD). Members participate in case management, medication management, group, and individual counseling where members can work on relationship healing and restoration, and increase and enhance self-awareness, self-sufficiency, and self-responsibility.

The purpose of the program is to:

- Increase understanding and insight about the disease of addiction by providing continuous education about all physical, mental, emotional, psychological, financial, legal, social, and relational aspects of chemical dependency and the subsequent recovery process.
- Teach appropriate life skills that assist in the progressive development of physical, mental, emotional, and social. And encouraging healthy coping strategies and interventions by learning the negative effects of illicit and illegal drugs.

Copa Health

<https://www.copahealth.org>

Copa Health’s integrated care for individuals with mental health challenges delivers a model of person-centered care that meets people where they are, guiding them to where they want to be. We use evidence-based practices and caring professionals to transform lives. We empower Arizonans to achieve their best possible health and a life of meaning and purpose.

We deliver care teams that include primary care physicians, registered nurses, medical assistants, and partner with pharmacies so members can receive multiple services in one familiar setting. Members can receive preventative health screenings, physical exams, flu shots, and guidance. There is close collaboration with pharmacies and benefits specialists to expedite the process to ensure members get the care they need without delay. Copa staff coordinate with community primary care physicians (PCPs) and specialists. Our approach targets the risk factors that cause heart disease, stroke, diabetes, and other unwanted chronic health conditions.

Case Management:

Copa Health case managers are trained system navigators and advocates whose primary job is to assist members in identifying services that help you achieve your goals. Your case manager is there through hard times and good times, with a listening ear and comforting smile to ease your way through short term crises.

Health and Wellness Services:

Health and Wellness programs offer fun and engaging educational and action-oriented services that support positive life changes in diet, fitness, stress, and sleep. Our health coaching staff is certified in physical fitness, nutrition, and Stanford Chronic Disease Self-Management to offer services with proven results. From fitness centers and walking groups to cooking classes and yoga, we’ll help you get to where you want to be, one step at a time.

Substance Abuse Recovery and Counseling Services:

Our Substance Abuse Recovery Program, SPECTRUM, combines mental health and addiction recovery treatment to achieve your goals, one step at a time. The integrated recovery team supports individuals and their families to achieve meaning, purpose, and balance in life. General counseling services are offered to build people skills, solve life issues, and promote personal recovery growth.

COPE Community Services Inc.

<http://www.copecommunityservices.org/>

COPE offers outpatient behavioral health services to adults with general mental health (GMH) needs, and/or substance use disorder. At little or no cost, COPE’s Methadone and Suboxone programs assist in reducing or eliminating opioid drug use by combining opioid agonist medication and counseling services that assist with relapse prevention. COPE’S outpatient sites provide any combination of the following services:

- Individual, Family, And/or Group Counseling
- Medication services provided by a psychiatrist, nurse practitioner, or nurse
- Court-Ordered Treatment
- Case Management
- Acupuncture
- Housing
- Recovery Support
- Opioid Treatment

- Health Education
- Residential
- Substance Abuse Treatment Prevention
- Assistance with homemaking and personal care
- Young Adult Program
- Living skills training (i.e., teaching independent living, social, and communication skills)

DKA

<http://dkajobs.com>

Using Evidence Based Practice models DKA assists members in obtaining valuable long-term hands on job placement skills. Each member meets with the assigned Employment Specialist to engage in one-on-one job development with the goal of obtaining and maintaining competitive employment. DKA contracts with a Licensed Professional Counselor who is available to assist members in determining employment goals, addressing any barriers, limitations, and accommodations for employment. Counseling services are provided to members individually or in groups based on each member's individual needs.

Computer Training – Computer and Office Skills class is offered to members lacking basic computer skills and those who would like to improve their current skills with the operating knowledge of Excel, PowerPoint, or any other Microsoft Software.

Food Fundamentals – Trainees will learn proper kitchen techniques, how to follow proper sanitation and food safety procedures and much more.

File Clerk Training - Trainees gain continued office skills training, introduction to various types of files and file systems.

Short-term Work Adjustment Training

All sites have a work site supervisor who works with each person to enhance their employability skills. Training typically lasts for 3 months.

- Archive Advantage
- Receptionist Training
- Pima County Department of Transportation
- Pak Mail
- Janitorial Training

Work Skills Training

- **Employability Skills Class** helps members learn employment skills needed for today’s work environment, identify potential barriers to employment and to explore their own abilities to be employment ready.
- **Personal Development Education** helps members to learn about mental health problems, coping skills, setting goals, and making action step plans to attain their employment goals.
- **Communication at Work Class** helps members focus on workplace ethics:
- **Conversation Skills** -Listening to others, starting a conversation, expressing feelings, getting your point across, etc.
- **Assertive Communication** making requests, refusing requests, making complaints, responding to complaints, asking for help, etc.
- **Conflict Management** - Compromise and negotiation, leaving stressful situations, disagreeing with others, making apologies, etc.
- **Vocational Skill** - Interviewing for a job, asking for feedback, following verbal instructions, solving problems, etc.

Easterseals Blake Foundation

<https://www.easterseals.com/blakefoundation/>

Counseling Services:

Individual Counseling: Short-term solution-focused treatment for adults. Services provide support through family and life transitions, behavioral concerns, and/or mental health and substance use

DUI Services:

BBH is licensed to provide ADOT, and court-approved, services for individuals who require drug and/or alcohol screenings, education, and/or treatment hours. Substance-use screenings are required for the 16-hour DUI education classes in Arizona DUI cases and is presented in a positive and supportive environment at our 7750 E. Broadway Blvd. offices only. Participants can share openly within the curriculum. EBF ensures you understand the process and the results prior to submitting the completion confirmation to ADOT and the appropriate court. The screening session is \$50. Level Two classes are \$20 per hour (\$320), with a 25% savings if paid in advance. EBF offers 20 additional hours of treatment for a total of 36 hours. Level One classes are \$20 per hour (\$720), with a 25% savings if paid in advance.

Psychiatric Services:

Psychiatric evaluation, diagnosis, medication prescription, and ongoing monitoring for relevant diagnoses. Services provided by licensed psychiatrists and nurses.

Therapeutic Groups

Seeking Safety:

Supported by research evidence, the group is present-focused, counseling model to help adults attain safety from trauma and/or substance abuse. Directly addresses both trauma and addiction. Primary goals are to reduce trauma and/or substance abuse symptoms and increase safe coping in relationships, thinking, behavior, and emotions.

Adult Anger Management:

A 12-week cognitive behavioral anger management group that will help adult participants learn skills to successfully manage anger. Based on ACT and Journey Beyond Abuse.

Early Recovery Skills (ERS):

Based on the Matrix Model, participants learn essential skills for establishing abstinence from drugs and alcohol. Sessions teach strategies and practices to assist clients with behavior changes that support abstinence. To benefit fully from treatment, participants are encouraged to also participate in 12-Step or mutual-help groups.

Relapse Prevention Group (RP):

Based on the Matrix Model, these sessions are forums in which people with substance use disorders share information about relapse prevention and receive assistance in coping with the issues of recovery and relapse avoidance. The group is based on the premises that relapse is not a random event, and the process of relapse follows predictable patterns. Signs of impending relapse can be identified by staff members and clients. The setting allows for mutual client assistance within the guiding constraints provided by the counselor. Clients heading toward relapse can be redirected, and those on a sound course to recovery can be encouraged.

Other Support Services:

- Case Management
- Consultation, Assessment and Specialized Testing
- Health Promotion
- Interpreter Services
- Living Skills Training
- Medical Management
- Peer Support
- Peer Support (comprehensive)
- Personal Care

El Paso Family Mentoring and Counseling Services

<https://www.elpasocares.org/>

El Paso Family Mentoring and Counseling Services is a counseling facility that provides both Outpatient and Individualized Intensive Outpatient Home-Based and Community-Based services.

Family System Based Assessments:

Our assessment is comprehensive, sometimes requiring multiple steps, meaning we are not only assessing the identified client, but also the entire family and community system, recognizing that each is an integral component of the individual's healing, growth, and development.

Mentoring Program:

Our Behavioral Health Technicians with five years or more experience, help our clients learn and apply skills in their environments. Our mentors focus on living skills training, psychoeducation, coping skill application, coordination of care and support.

Individualized Intensive Outpatient (I-IOP), These One-to-One intensive services are provided in the person's environment. Our work with clients provides the direct application of skills in the areas that are causing them distress. Our goal is to positively reduce substance use, self-harming behaviors, crisis utilization and hospitalization. Beginning with a consultation to assess the need for services, our services are provided as much as needed, up to 12 hours per week. These appointment hours are set accommodating the client's schedule and are designed to not interfere with natural supports.

Behavioral Coaching- Adults All stakeholders involved with the client are included in this program's ongoing coordination. Stakeholders are frequently asked for feedback on behaviors and changes in behaviors via a Functional Behavioral Assessment. This is done to increase the following: Consistency for the client; progression and development in life activities; and use of coping skills and communication.

Crisis/ Hospitalization Follow- up Program:

After a crisis hospitalization, these One-to-One support services are provided in the client's environment to help them with follow-up appointments, services, and skills development. Our clients are guided toward the direct day-to-day application of skills in the areas that are causing them distress. This is done with the goal to reduce substance use, self-harming behaviors, crisis utilization and hospitalization.

Counseling

Chronic Pain Program, close coordination is maintained with the client's medical doctor, pain management specialist, physical therapist and/or all applicable medical providers. The goal of this program is to increase the following: Stress management, Meaningful life activities, Tolerance of living life with the pain they have without increasing suffering.

Services are for:

- Adults enduring persistent chronic pain that their medical doctor believes is increased or caused by psychological factors.
- Adults that have misused pain medications
- Adults that experience limited or reduced daily activities due to their pain.

Couples Counseling:

We work with couples to determine their individual primary relationship struggles and identify what each person needs from the relationship. Once this is done, we help them to focus on improving communication skills, working on acceptance of each other's differences, and coming together through their commonalities.

Agency's Specialties:

Our adult counseling/mentoring program covers all general mental health diagnoses. We offer both Adult Individual and Group counseling.

Some of our focus specialties are:

- Personality Disorders
- Anxiety
- Hoarding
- Obsessive Compulsive Disorder
- Co-occurring Struggles
- Substance Abuse
- Complex Trauma
- Grief
- Depression
- Self- harm
- Compassion Fatigue

Hope Inc.

<https://www.hopearizona.org/>

Nueva Luz:

This program offers an array of outpatient services to those in need of care for behavioral health and substance use challenges. Our peer driven culture provides a unique model of care that is characterized by trust, acceptance, and the use of empathy. Individuals will find recovery support through groups and individual services, the navigation of community resources, and through coordination of care to support their individual recovery goals. Supervised day program for members in need of extra support to participate in group milieu.

Nueva Esperanza:

This program offers an array of outpatient services to those in need of care for behavioral health and substance use challenges with special emphasis on members with criminal justice system involvement. Our peer driven culture provides a unique model of care that is characterized by trust, acceptance, and the use of empathy. Individuals will find recovery support through groups and individual services, the navigation of community resources, and through coordination of care to support their individual recovery goals.

Crisis Services:

The PACT team receives referrals from the CRC and other behavioral health inpatient facilities and the team provides support to the members in the community for up to 45 days.

Peer After-Care Team (PACT):

As a second-responder peer support team, PACT works with members in the community to help with stabilization following a crisis episode. PACT seeks to bridge gaps and facilitate effective transitions working with all involved community agencies on the member’s behalf for a period of up to 45 days. PACT's overall goals are to successfully link members with available supports and has obtained additional fundamental coping skills to strengthen their recovery.

Opioid Outreach:

This grant funded program offers peer support to assist community members obtain treatment for an opioid use disorder. Peer staff conducts outreach to underserved, high-risk populations, engage high-risk populations in MAT services, assist with navigation to additional services that promote successful recovery and provide overall support to enhance recovery.

Horizon Health Wellness

<http://www.hhwaz.org/>

Horizon Health Wellness is an integrated clinic providing medical and psychiatric care. We provide all general mental health services including psychiatric assessments, medication management, counseling (individual, group, and family), family support, peer supports, and case management.

Our MAT Program is called STOP: Substance Abuse Treatment for Opiate Addiction Program and it is managed with our primary care provider. We treat and view addiction as a chronic relapsing brain disease and are working to manage the physical symptoms of opiate use disorder along with behavioral health services (therapy and psychiatric services if needed) in conjunction to manage the emotional part of addiction.

Court-Ordered Treatment Programs:

Intakes, evaluation, treatment, and education as required by the state, these services are self-pay: DUI, Domestic Violence and Anger Management Classes

Therapeutic Services:

- Dialectical Behavioral Therapy (DBT)
- Eye Movement Desensitization and Reprocessing (EMDR)
- Intensive Outpatient (IOP)
- Trauma Counseling.

Most services are offered at every location, including MAT services. Outlier clinics use telemed when a live provider is unable to be present.

Intensive Treatment Systems

<http://www.itsofaz.com>

Intensive Treatment Systems (ITS) is a, outpatient substance use treatment program providing Medication Assisted Treatment (MAT) to patients who are affected by Opioid Use Disorder and/or Alcohol Use Disorder. The primary treatment objective of ITS is to help patients free themselves from the dysfunctional pattern of drug and alcohol use through medications such as Methadone, Vivitrol and Suboxone as well as counseling, peer support and case management services.

Our aim is to guide members toward a drug and alcohol-free lifestyle with improved personal and vocational functioning. Medication services are provided 24 hours a day 7 days a week and closely monitored by qualified medical staff, who emphasize safety and a comprehensive approach to the patient’s treatment. Counseling and case management services are provided by addictions professionals who utilize Motivational Interviewing and other evidenced based practices to ensure exceptional recovery-oriented and patient centered treatment.

Jewish Family & Children’s Services

<http://www.jfcsaz.org>

At Jewish Family & Children’s Service, we help provide counseling and psychiatric services for adults who need a compassionate ear. While our services are built from core Jewish beliefs, they have a universal application that can apply to people of all faiths and spiritual

practices. It is important to us that you feel like you have a safe space in the community to vent your concerns and get help with life's struggles.

We provide comprehensive in-home support such as counseling, case management, advocacy, and referrals to appropriate resources. These services are designed to improve emotional health and develop community connections. This is an ideal program for seniors who have a difficult time leaving the home and need more social interaction. Our goal is to enhance independence and improve quality of life.

Medication Lines (MedLine):

These MedLines are for current consumers at JFCS. The MedLine is an important tool for members to use for contacting our medical support staff or the JFCS prescriber.

Services for Adult Members:

- Psychiatric Care
- Medication Services
- In-Home Services
- General Mental Health/Substance Abuse Services
- Senior Concierge Services
- Memory Café
- Creative Aging
- Integrated Health for Adults

Marana Healthcare

<http://www.mhchealthcare.org>

To receive MAT/OBOT services member must be 21 years and older w/ OUD dx confirmed by an MD/DO/NP. If member is Pregnant or actively seeking pregnancy and currently using: Benzodiazepines, alcohol, and cocaine. Our clinic offers individual, and Co-Ed group counseling, for Substance Use through our Intensive Outpatient Programs. Wellness Recovery Action Plan (WRAP) is an evidenced-based practice which has shown great success in recovery for members with substance use issues, and mental health conditions. We also offered Court-Ordered Treatment.

Over the course of 10-weeks, members learn about costs and consequences of drug and alcohol abuse, the relationship of familial factors on their substance use, the course and progression of substance use in their own lives and the impact of other environmental factors, identifying substance use triggers, and developing a simple relapse prevention plan.

Mariposa Community Health Center (MCHC)

<http://www.mariposachc.net/>

One of our goals at Mariposa Community Health Center is to improve quality of life and reduce harm to patients with Opioid Use Disorder (OUD) utilizing Medication-Assisted Treatment with compassion and empathy. The medication we have chosen to prescribe is Buprenorphine and Naloxone. MAT Services are also offered to pregnant women by our trained OB/GYN. Mariposa's Pharmacy will dispense the medication to the patient to begin induction at the Center. The patient will continue treatment at home after clinical improvement is observed and the induction process is completed. A follow up appointment is required in 24 hours to monitor the patient's progress.

Native Health

<https://www.nativehealthphoenix.org>

Native Health serves the GMH/SU adult population, currently group services are exclusive to the adult population. All BH services at NATIVE HEALTH require that an intake, inclusive of BH screening, intake, and assessment, be completed, prior to engaging in services. However, if an individual has already completed an assessment that is compliant with ACC standards within the past year and is still applicable to the individual's presenting concerns and diagnoses, then the assessment portion of the intake can be excluded.

Intake for ALL new BHD patients:

- Screening
- Comprehensive Assessment
- Interim service plan

Specific and Specialty Services For:

- Individuals designated SMI (some limited exceptions for some group services)
- Autism Spectrum Disorder (ASD)
- DUI Screenings
- DUI education classes
- Driver's license reinstatement

Onsite Psychiatry for:

- Initial Psych. Evaluations
- Follow-up medication management

Tele-psychiatry for:

- Initial Psych. Evaluations
- Follow-up medication management

Onsite Group Counseling for:

- Anger Management
- Domestic Violence (offenders- Men's/Women's)
- Intensive Outpatient (IOP) Substance Use
- Standard Outpatient (STOP) Substance Use
- Talking Circle (Sundays)

Individual Counseling for:

- Anxiety
- Trauma
- Depression
- Substance Use
- Grief/loss
- Communication
- Disruptive behaviors

*And any service already actively being provided through another agency

Open Hearts

<https://www.openheartsaz.org>

Substance Abuse Services:

Substance Abuse Group topics include increasing copings skills, relapse prevention techniques, understanding addictive thought processes, stress management, cross addiction, denial, post-acute withdrawal, decision making, life skills, impact of addiction on relationships. Group members receive and give support, share, gain education, and explore ways to meet their treatment goals.

Co-Occurring Group Services:

CO-OP is our standard outpatient group for the treatment of members who have co-occurring disorders (mental health and substance use/dependence). Group focuses on the interactions that substance abuse can have on mental health, relationships, employment, legal issues, and the interactions that mental health can have on substance abuse and dependence. Group members learn how to not “self-medicate” their mental health symptoms with drugs and/or alcohol and how to improve their lives to reach their treatment goals. CO-OP meets twice per week for 2 hours.

Psychotherapy Group Services:

This group focuses on helping members effectively manage emotional situations. Group members are assisted in identifying the emotions they want less of and learn ways to reduce these emotions. Group members will learn to understand the cause of their emotions and the impact emotions can have on their lives as well as learn how to identify normal vs. self-defeating emotions. Group members will learn tools to aid in reducing or eliminating unnecessary emotional pain and stress. Depression anxiety, manic episodes and anger are some of the primary challenges that group members may face.

Sonora Behavioral Health

<http://www.sonorabehavioral.com>

Psychiatrists, master’s level therapists, and registered nurses clinically assess, diagnose, and develop individual treatment plans for each patient’s specific needs. Participants meet Monday through Friday, six hours each day, with lunch included. The average participant is typically enrolled for three weeks. Adult Inpatient Care Sonora Behavioral Health Hospital provides short-term inpatient services to individuals who are in an acute crisis. Patients experience a multidisciplinary approach to diagnosis, along with individualized treatment plans for mental health and chemical dependency.

Sonora Behavioral Health now offers more inpatient beds, with the addition of a new the 76-bed unit.

*Free transportation is available for qualified patients who reside in the Tucson area.

Sonoran Prevention Works

<http://www.spwaz.org/>

Sonoran Prevention Works, Overdose Education and Naloxone Distribution Program provides free overdose prevention recognition and response training to all Arizonans. This program provides professional and in-service trainings and community trainings to individuals at risk for overdose and their loved ones. The OEND program offers free Naloxone kits to any one across the state. This program also offers technical assistance and train-the-trainer opportunities for organizations interested in implementing overdose prevention and Naloxone programming.

Staying Safe and Healthy:

- Fentanyl test strips
- Overdose prevention kits
- Quitting one drug while managing the use of another
- Wound care education

Getting Basic Needs Met:

- Food, water, and shelter
- Transportation to medical appointments/job interviews
- HIV/Hepatitis C screening
- Counseling or Group Therapy

Know Your Rights:

- Rights restoration
- Court proceedings
- Probation
- DCS Cases

Southwest Network

<http://www.southwestnetwork.org/>

Southwest Network offers a full array of services tailored to the unique needs and goals of young people ages 16.5 to 22 with emotional or behavioral difficulties. Transition to Independence Process (TIP) is a program where community-based Transition Facilitators provide training and activities in the areas of employment, education, housing, social and family relationships, independent and daily living, finances and budgeting, decision making, emotional and physical health and wellbeing, and community-life functioning. Transition Facilitators work one-on-one with young people to help them meet their unique goals, coach, and support them, set the foundation for their transition to adult roles, and build a future for themselves.

We offer a variety of levels of care, from medication services only to assertive community treatment. We utilize Individual Choice and ongoing assessment to determine the best way to help you get well.

Services include:

- Psychiatric evaluations
- Substance abuse evaluations
- Crisis intervention
- Help with thoughts of suicide
- Medication
- Case management
- Rehabilitation and support
- Employment rehabilitation and training
- Language services
- Office Based Opioids Treatment
- Personal care and life skills development
- Nursing
- Peer and family support
- Housing Support
- Transportation Assistance

Valle del Sol

<http://www.valledelsol.com/>

Valle del Sol offers an integrated approach to healthcare. Primary healthcare services are offered for children and adults in addition to behavioral health services. Combining primary care and mental health services allows for an integrated health care team to treat the whole person: mind, body, and spirit. Services include Medication Management, Counseling for Families, Individual, and Groups.

24/7 Behavioral Health:

Through this program, we provide 24/7 crisis intervention for individuals with serious mental illness or substance use disorders, including opioid use disorders; children and adolescents with serious emotional disturbance; and individuals with co-occurring mental and substance disorders. This is currently available at our South Phoenix and Central Phoenix location and is open to any member of the community.

Court-Ordered Treatment:

Programming for individuals who are court-ordered or non-court ordered to complete the following treatment:

- Anger Management
- Parenting
- Domestic Violence
- Substance Abuse
- DUI

Outpatient Opioid Treatment Program:

If you have an opiate addiction of at least 12 months and are at least 18 years old, Valle del Sol can help through a comprehensive Outpatient Opioid Treatment Program. Medication-assisted treatment program (MAT) uses Methadone or Suboxone along with individual and group counseling.
