Opioid Treatment Program (OTP) Requirements

As a result of [ARS 36-.2907.14](#), AHCCCS and its contracted health plans have implemented new standards and reporting requirements for all Opioid Treatment Programs (OTPs) receiving AHCCCS reimbursement. These new standards and reporting requirements are in addition to all State or Federal licensing and registration requirements.

As of August 27, 2019, newly established OTP sites are required to submit to and obtain AHCCCS approval for all the plans listed below along with a checklist AHCCCS approval of each plan is required prior to the provision of AHCCCS reimbursable services. If approved, the new OTP site will be required to submit an annual report containing all of the identified plans and checklist in November of each year.

Any existing AHCCCS registered OTP site is required to submit all required plans and the checklist on November 15th of each year.

Plans required from the OTPs include:

1. Detailed security plan
2. Neighborhood engagement plan
3. Comprehensive plan to demonstrate how the OTP ensures that appropriate medication-assisted standards of care are met
4. Community relations and education plan
5. Current diversion control plan
